

ICT: SIMPLIFIED TAKEBACK FOR GLOBAL PRODUCERS

Sometimes standard recycling is not enough

Worldwide ICT producers face increasing demands for their end-of-life equipment to be taken back. Designing and implementing a multi-country takeback solution is challenging as producers must comply with complex product, waste, and data protection regulations.

We offer ICT producers a global takeback solution ensuring compliance across borders. Producers can choose what they need from our suite of services: from single takeback services for small amounts of waste to holistic, worldwide concepts.

What do we offer?

- **Collection of complete units or components**
 - Pick-ups from organizations with distant locations
 - Flexible quantities: small numbers to full truck loads
 - Extra pick-up services: packaging, decommissioning, etc.
- **Bespoke logistics solutions**
 - Domestic and cross-border
 - Standard or secure transportation, consolidation, and storage
- **Environmentally safe end-of-life treatment**
 - Capability to recycle or refurbish and reuse
 - Full traceability to legal destinations
 - Facilities audited to the highest environmental standards
- **Additional Services**
 - Serial number scanning
 - Data wiping
 - Certified product and data destruction

Customer benefits

- A global and harmonised solution providing the full range of services
- Single point of contact for global ICT takeback operations
- Fully compliant logistics and recycling network
- Control tower for operational and financial reporting
- Protection of brand reputation
- Secure destruction of personal and other sensitive data

Expertise

Our core competence is waste management, based on 15+ years of managing international takeback activities for end-of-life electronic devices.

- Established reverse supply chains in 48+ countries
- Mature recycling network with 300+ partners
- Synergies with PROs in the majority of EMEA countries
- Supplier qualification, monitoring, and auditing
- Centralised backoffice operations
- Multi-lingual experts in operations, audits, and environmental compliance

About us

Landbell Group is a leading global supplier of environmental and chemical compliance services, which helps companies to carry out their extended producer responsibility (EPR) obligations.

With customers in many countries, and colleagues based all over the world, we are a global platform for EPR.

Our unique approach

- An international team and network of compliance experts combine unrivalled operational expertise with consulting competence
- We run more approved EPR schemes than any other organisation globally
- We offer international support for EPR and chemical regulations, as well as software solutions for efficient compliance management processes
- Our global takeback programmes collect products anywhere
