

Simplifying EPR Compliance

Specialized EPR Support Across the Americas and Beyond

Navigating EPR requirements has become increasingly complex, with **evolving regulations, differing reporting obligations, and growing compliance costs**. Many organizations struggle to understand their obligations, assess implementation requirements, collect the necessary data, and manage ongoing reporting and administrative burdens.

CGlobal, the EPR consulting division of H2 Compliance, helps **simplify the process**. We support companies with EPR assessments, implementation planning, registration, reporting, and ongoing compliance management, helping them understand their requirements, control costs, reduce risk, and stay focused on their core business.

Industry Expertise

We provide support across some of the most regulated sectors:

- **Cosmetics & Beauty:** Ingredient safety and packaging compliance.
- **Electronics & IT:** E-waste, batteries, and copyright levies.
- **Pharmaceuticals & Medical:** Reporting for sharps, vials, and medical packaging.
- **Textiles & Apparel:** Emerging textile EPR requirements.
- **Consumer Goods:** Furniture, mattresses, toys, paint, and tires.
- **Chemicals:** EPR, hazardous materials, and chemical reporting requirements.

Our Support Includes

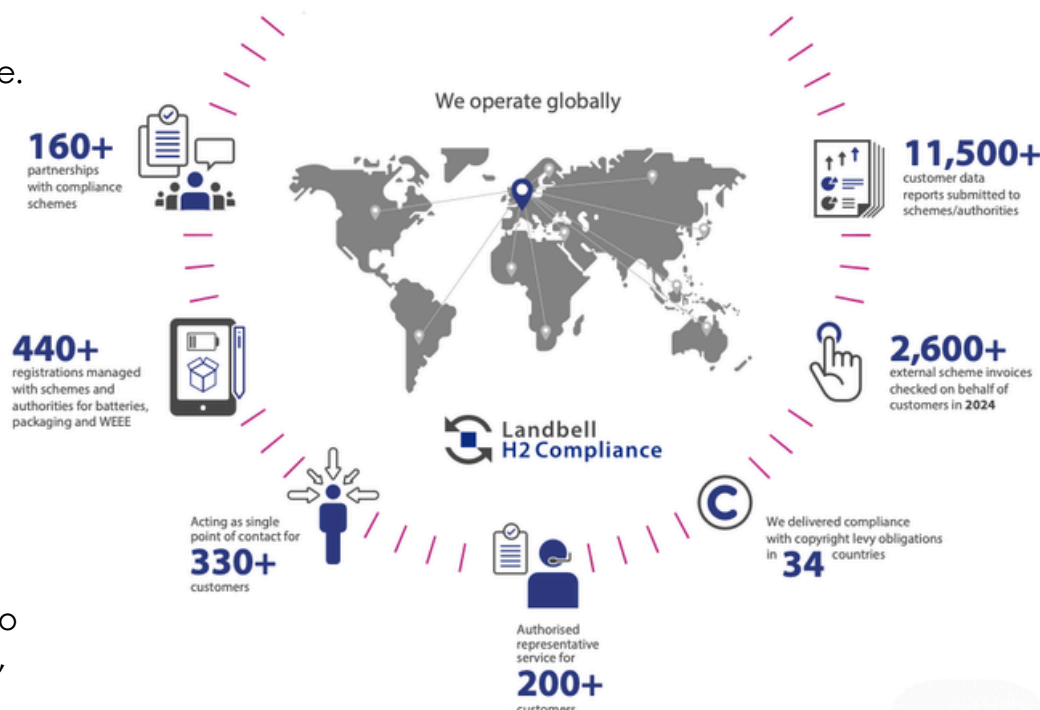

- ✓ **Obligation Identification:** We analyze your product portfolio and market presence to pinpoint your specific compliance obligations and outline clear action.
- ✓ **Compliance Management:** We don't just identify obligations; we help you manage them effectively, providing pragmatic and tailored solutions.
- ✓ **PRO & Authority Interaction:** Let us handle the coordination with regulatory authorities and Producer Responsibility Organizations (PROs).
- ✓ **Regulatory Monitoring:** Stay ahead of the curve with our continuous monitoring of evolving environmental regulations and deadlines.
- ✓ **Registration Support:** We handle the process of registering your products across various state and provincial regulations.
- ✓ **Reporting Support:** Say goodbye to complex reporting requirements. We ensure accurate and timely submissions.
- ✓ **Invoice Management:** We simplify the often-complex world of environmental compliance invoicing.
